

NEW

TECO

LOW NOISE & LOW LOSSES

TRANSFORMERS

DISTRIBUTION TRANSFORMERS

- Capacity & Range: 69kV 25MVA
- Long operating life
- High reliability
- Ultra low noise transformers
- 48dB Total noise (no-load noise+ load noise) at 25MVA

POWER TRANSFORMERS

- Capacity & Range: Upto 400kV 775MVA
- Great mechanical short circuit strength
- High technology software analysis
- Low noise levels
- Easy inspection and maintenance

CAST RESIN TRANSFORMERS

- Capacity & Range: 36kV 10MVA
- Great mechanical strength against short circuit and lightning impulse
- Resistance to harsh ambient conditions
- High short time overload capacity
- Self-extinguishing, Non-explosive
- Easy maintenance and installation
- Overload capacity

AMORPHOUS METAL CORE TRANSFORMERS

- Capacity & Range: 36kV 3MVA
- Low core loss
- High efficiency
- Long operating life
- Overload capacity
- Energy conservation
- Great anti-harmonic ability

➤ Innovative products customised for your specifications

➤ When it comes to Mining, Infrastructure and Power stations our products tick all the boxes

➤ Onsite expertise for installation and commissioning

Head Office, Sydney
